Dear Jim,

Because several people in New Orleans, one of whom I believe is Jack Martin, have mentioned the name "Itkin" to me, and in at least some cases, in connection with New York, I have had some interest in the cause against the former city official.

Attached is the lead story in yesterday's Daily News (N.Y.)

It says he was both FBI and CIA.

I've lost Jones Harris' address or I'd have written him asking if he would try and check further.

Among the interesting things is that it was not Itkin's attorney who produced the testimony.

Sincerely,

Harold Weisberg
